All of our Kraft Paper Gift Bags are made in Shenzhen, ensuring that each bag is of the highest quality. Additionally, our bags are made of Kraft paper, which is a renewable resource, making them an eco-friendly choice for your business or personal use.

In summary, our Kraft Paper Gift Bags are a stylish and practical solution for carrying items of various sizes. With a variety of colors to choose from and the ability to customize your design, our paper carrier bags are perfect for any occasion. Made of high-quality Kraft paper and produced in Shenzhen, our handle paper bags are not only durable but also eco-friendly. Order yours today and start carrying your items in style!

Applications:

One of the most popular applications of handle paper bags is in shopping. These bags are ideal for carrying groceries, clothes and other items that customers purchase. They are durable and can withstand the weight of heavy items. Handle paper bags are also perfect for gift packaging. They can be customized with logos, slogans or designs to make them look more attractive.

Paper bags with handles are also suitable for use in the food industry. They can be used to pack takeout meals, snacks, and drinks.

Restaurants and cafes can customize these bags with their logos, brand colors or any other design to promote their brand.

Handle paper bags are also used in trade shows and exhibitions to give away promotional items such as pens, keychains and brochures. These bags are perfect for carrying promotional items as they are lightweight and easy to carry.

Another usage of handle paper bags is in the pharmaceutical industry. They are used to pack medicines, drugs, and other healthcare products. These bags can be customized with important information such as dosage, expiry date, and other details.

Handle paper bags are popular among retailers and consumers alike due to their durability, eco-friendliness and customizability. They are made in China and can be delivered through FOB or CIF. Payment methods such as T/T and L/C can be used. The surface handling of these bags is done through offset printing.
