- Usage: Shopping, Packaging, Gift Bag
- Thickness: 3mm
- Highlight: **3mm Thickness Paper Bag,
Twisted Paper Handles Kraft Paper Bag,
Eco Friendly Shopping Bag**

Product Description:

The Packaging Paper Bag crafted from a superior blend of PET, VMPET, and PE materials exemplifies the perfect fusion of durability, functionality, and eco-friendliness. Designed with a three-layer material structure, this paper bag ensures enhanced strength and resilience, making it an ideal choice for various packaging needs. The combination of PET (Polyethylene Terephthalate), VMPET (Vacuum Metallized Polyester), and PE (Polyethylene) creates a robust barrier that protects the contents from moisture, dust, and external damage, ensuring that whatever you carry inside remains secure and intact.

One of the standout features of this Packaging Paper Bag is its biodegradability. In today's environmentally conscious world, the demand for sustainable packaging solutions is higher than ever. This paper bag addresses that demand by being environmentally responsible. Unlike conventional plastic bags that persist in the environment for hundreds of years, this biodegradable paper bag decomposes naturally over time, reducing pollution and minimizing waste footprint. This makes it an excellent choice for businesses and individuals who prioritize green initiatives and want to contribute positively to the planet.

Beyond its environmental benefits, the paper bag is designed with user convenience in mind. It features twisted paper handles that provide a comfortable grip and excellent load-bearing capacity. These handles are not only sturdy but also add an elegant touch to the overall appearance of the bag, making it suitable for retail stores, boutiques, gift shops, and other commercial establishments. The twisted paper handles ensure ease of carrying, even when the bag is filled with heavier items, which enhances the customer's shopping experience.

With a thickness of 3mm, this Shopping Paper Bag strikes a perfect balance between sturdiness and lightweight design. The thickness contributes to its durability, allowing it to hold a variety of products securely without tearing or collapsing. Whether used for clothing, groceries, gifts, or other merchandise, the bag can reliably support the weight and volume of its contents. The 3mm thickness also facilitates stacking and storage, offering practical advantages to retailers and users alike.

The versatility of this Paper Bag With Handle extends across multiple applications. Its excellent packaging capabilities make it suitable for a diverse range of uses. Retailers can use it as a shopping companion for customers, enhancing their brand image by offering eco-friendly and stylish packaging. Additionally, it serves perfectly for gift packaging, promotional events, food takeaway, and more. The high-quality material and thoughtful design ensure that it performs well in different settings, providing a dependable packaging solution that customers will appreciate.

In summary, this Packaging Paper Bag combines a premium material structure of PET, VMPET, and PE with biodegradable properties, making it both strong and environmentally friendly. Its twisted paper handles offer comfort and reliability, while the 3mm thickness guarantees durability and practicality. Whether you need a Shopping Paper Bag for retail purposes or a Paper Bag With Handle for packaging gifts or products, this bag meets all expectations with style and sustainability. Choose this paper bag to support your packaging needs while contributing to a greener, cleaner environment.

Features:

Product Name: Paper Bag
Application: Suitable for gift, shopping, takeout, and online shop use
Printing: High-quality Gravure Printing for vibrant designs
Printing Type: Offset Printing ensures sharp and clear images
Handle Type: Durable twisted paper handles for comfortable carrying

Applications:

The OEM Paper Bag, originating from China, is an excellent Packaging Paper Bag solution designed to meet diverse needs. Certified by FSC, this product ensures environmentally responsible sourcing, making it an ideal choice for eco-conscious consumers. With a thickness of 3mm and crafted from 300g C1S Artpaper, these gift paper bags offer durability and a premium feel. Featuring twisted paper handles, they provide comfortable carrying while maintaining an elegant appearance.

These custom paper bags are perfect for a wide range of applications, including gift packaging, shopping, takeout, and online shop deliveries. Whether you are a retailer looking to enhance your brand image or an individual seeking stylish gift paper bags, the OEM Paper Bag caters to all. The option for customized logo printing allows businesses to personalize their packaging, reinforcing brand identity and creating a memorable unboxing experience for customers.

In retail settings, these Packaging Paper Bags serve as an attractive and practical choice for carrying purchases, elevating the shopping experience. For restaurants and food service providers, the sturdy design and secure twisted handles make the bags ideal for takeout orders, ensuring that food items are transported safely and conveniently. Online shops can also benefit from these custom paper bags by providing customers with environmentally friendly and visually appealing packaging that reflects their brand values.

With a minimum order quantity of 500PCS and a supply capacity of up to 1,000,000 units, OEM Paper Bags are suitable for both small businesses and large-scale enterprises. Packaging is handled carefully in cartons to ensure the bags arrive in perfect condition, with delivery times ranging from 25 to 40 days. Pricing is available upon communication, allowing for flexible arrangements based on order size and customization requirements.

In summary, the OEM Paper Bag combines quality, sustainability, and customization options to meet various gift, shopping, and takeout packaging needs. Its robust construction, elegant design, and eco-friendly certification make it a standout choice for anyone seeking reliable and attractive packaging paper bags.

Customization:
